

INDIANA SCHOOL FOR THE BLIND AND VISUALLY IMPAIRED

Tobacco/Vaping Use on Campus

Policy/Procedure O-38

Policy and Procedure: The Indiana School for the Blind and Visually Impaired Administration and School Board recognizes that the use of tobacco and vaping products is a health, safety, and environmental hazard for students, employees, visitors, and school facilities. The administration and board believe that the use of tobacco and vaping products on school grounds, in school buildings and facilities, on school property or at school-related or school-sponsored events is detrimental to the health and safety of students, staff and visitors. The administration and board acknowledges that adult employees and visitors serve as role models for students. The administration and board recognize that it has an obligation to promote positive role models in schools and promote a healthy learning, living and working environment, free from unwanted smoke, vaporized material and tobacco use for the students, employees, and visitors on the school campus. Finally, the administration and board recognize that it has a legal authority and obligation pursuant to the federal *Pro-Children's Act of 2001*, 20 U.S.C. §§ 7971 *et seq.*
